SUMMARY

Results-driven Full Stack Software Developer with hands-on experience building scalable, performant web applications using modern technologies including Next.js, React.js, Node.js, Python, and Go. Adept at both frontend and backend development, with a strong understanding of system architecture, API design, and user-centric interface development. Demonstrates a deep commitment to clean, maintainable code and agile best practices. Passionate about using emerging technologies including Artificial Intelligence as tools to enhance productivity, optimize development workflows, and deliver innovative solutions in today's fast-evolving tech landscape. Experienced in contributing to open source projects, with a strong belief in the value of community-driven development and collaborative problem-solving. A proactive team player with a continuous learning mindset and a strong focus on delivering high-impact, business-oriented software products.
